DETAILED ACTION

Election/Restrictions

1. Claims 2-13 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to inventions nonelected without traverse, there being no allowable generic or linking claim.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claim 1 remains rejected under 35 U.S.C. 103(a) as being unpatentable over Vayssie et al., US 5,073,174 for the reasons of record in the previous office action.

Response to Arguments

4. Applicant's arguments filed January 23, 2004 have been fully considered but they are not persuasive. Applicant argues that oxidative hair dyeing is not a predictable art. This is not persuasive because applicant's cited data indicates that oxidative hair dyeing is a predictable art where close structural isomers and homologs are concerned. As applicant's own data demonstrate, chemicals which are closely related structurally to those in the prior art can be expected to successfully dye hair. Expected results are evidence of obviousness. *In re Skoll*, 187 USPQ 481. *In re Skoner*, 186 USPQ 80. Optimization of the amount of dye required and determination of the exact shade obtained amount to ordinary experimentation.

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
